# COMPANY OVERVIEW

**PJN Steel Fabrication** is a family-owned business with over three decades of experience in steel fabrication. Working from our factory in the Riverina region of southern New South Wales, we specialise in high-quality steel structures for rural, industrial, commercial and public use. We also manufacture steel components for construction projects.

Our focus is on maintaining quality control through in-house processing.

Because our clients deal directly with us, this ensures expert advice and a personalised building experience. We work closely with clients to streamline the building process and ensure on-time delivery to your exact specifications.

**With a commitment to quality and customer service, trust PJN Fabrication as your reliable choice for your next building project.**

# OUR PURPOSE

Experience peace of mind with our services, knowing that every aspect will run smoothly from start to finish.

At PJN Steel Fabrication, we specialise in designing and engineering high-quality steel structures that can withstand the challenges unique to the Australian environment.

And, because of the success of our sheds division, we're using our advanced steel-finishing equipment to manufacture steel components for construction projects.

Our priority is quality from the moment you first contact us to the final screw we put in place.

Trust PJN Fabrication to design and engineer your steel structures and deliver them anywhere in Australia.

# OUR SERVICES

We offer a range of services, including heavy structural steel fabrication, roll forming, building and shed components, CNC technology, earthworks, transportation and freight.

We have the latest equipment and a team of experts ensuring we provide precision steel components while meeting deadlines.

Let us handle all your steel manufacturing needs with our attention to detail and commitment to quality service.

**Simply Better Sheds:**  
Our motto reflects our commitment to delivering superior products and excellent customer service.

## HEAVY STRUCTURAL STEEL FABRICATION

Our company specialises in the fabrication of heavy structural steel for a variety of projects and applications. Our team is equipped with the latest technology and tools to ensure high-quality and efficient fabrication. No project is too big or too distant.

## BUILDING AND SHED COMPONENTS

Our core business for the last three decades has been manufacturing and supplying shed components. We have the capacity to fabricate and supply a wide range of components including roof trusses, doors, bridging and framing components.

## ROLL FORMING

This service involves cladding, gutter, purlins, flashings, steel battens and other products from a zinc or colour sheet steel coil. We have the equipment and expertise to roll form a wide range of steel products.

## EARTHWORKS

We've purchased an Avant 850 Articulated Compact Loader to bore the necessary footings for sheds, taking the middleman out of the equation. Our team is experienced in earthworks and we can manage key elements of your site preparation.

## CNC TECHNOLOGY

We use computer numerical control (CNC) technology to ensure precise cuts and shapes in all of our fabrication projects. This technology allows us to efficiently produce high-quality components with a high level of accuracy.

## TRANSPORTATION AND FREIGHT

Our company provides transportation and freight services to the whole of Australia. We do this to ensure that your components are delivered on time and in excellent condition.

# INDUSTRIES WE SERVE

At PJN Steel Fabrication, we cater to a diverse range of industries with our high-quality steel structures. Our services have wide appeal among agricultural, commercial, industrial, public use and residential sectors, among other industries.

Our commitment to excellence ensures you that we're your trusted choice for all your steel fabrication needs.

# TESTIMONIALS

*'We chose PJN Sheds because of their professional service and high-quality products. The shed frame is built for strength and durability and the workmanship is second to none.'*

**-Mickan Brothers**

*'From ordering to construction, we got exactly what we were promised. In all my years in business, I don't recall this ever happening before. I applaud their professionalism and the quality of the work.'*

**-Tom and Erin's Nursery**

*'We couldn't be happier with the shed. Amazing job. As you said it would, all went very smoothly and we are so impressed with every aspect of the shed. The quality and attention to detail in the making of it, were apparent.'*

**-Adrian and Rebecca Butler**

*'Good company. Great product. Without hesitation, I'd go back.'*

**-Malcolm Wooden**

Get it right the first time,  
put our years of expertise  
to work for you.

# OUR CLIENTS

PJN Steel Fabrication has a long-standing commitment to serving the agricultural sector, commercial and industrial interests, and public spaces with expertly crafted steel structures. Our decades of experience ensure high-quality results every time.

Unleash the power of precision with our state-of-the-art technology and decades of expertise.
